WORK EXPERIENCE

PROJECTS

Legacy of Dragons | TechLead

09 / 2022

- 2D top-down shooter in an action -survival genre which a dragon hero battles waves of enemy dragons across Multiple stages with 2 boss encounters.
- Collaborated with a team of 4 and led development of core gameplay systems including enemy wave mechanics and stage progression
- Directed technical architecture as TechLead, coordinating system integration across the team

Help me! Doctor Water | QA

03 / 2023

- 2D vertical-scrolling action game in an escape-action genre; Dr. Water ascends an erupting volcano, defeating enemies and bosses with various weapons
- Collaborated with a team of 4 and ensured gameplay quality through systematic playtesting across all stages and boss encounters
- Microdegree Expo Best Award , KMU, 2023

LostGuns | Solo Develop

01 / 2026 – 03 / 2026

- Developed a PC clone of the mobile game 'Lost Guns' using the Unity engine, adapting core mechanics for desktop gameplay.
- Analyzed and reverse-engineered the original game's core systems, successfully implementing precise movement, jumping, ladder interactions, and weapon-switching logic.
- Integrated acquired 2D assets by rigging them with DragonBones, and manually authored skeletal animations to faithfully replicate the original game's visual dynamics.

I.G.Y | TechLead

09 / 2025 – 06 / 2026

- Isometric builder simulation game inspired by Caesar 3 and sims2000.
- Collaborated with a team of 5 and led technical architecture for simulation systems including engine developing and citizen AI behavior
